Bangalore

EXPERIENCE

Lead Software Engineer

2024 - Present

Bangalore, India

Citrix

- Led **enterprise-level projects** with cross-geo, cross-functional engineering teams, driving transformation in Citrix's business operations.
- Architected and developed scalable solutions using C#, .NET Core, and Azure services, adopting **microservices architecture** and deploying via **Docker containers** orchestrated with **Kubernetes**.
- Spearheaded the migration of **legacy monolithic applications to Azure**, optimizing cloud resource utilization and significantly enhancing system performance.
- Designed and **implemented cross-functional processes** from the ground up, ensuring alignment with business objectives and technical requirements.
- Enhanced **application monitoring, availability, health, and scalability** by integrating Azure monitoring tools and leveraging containerization with Docker.
- Designed robust **system architectures**, making strategic decisions to **ensure long-term scalability and adaptability** to both current and future project needs.
- Provided technical leadership, guiding **decisions on technology stacks, system architecture**, and coding standards to ensure high-quality, maintainable solutions.

Senior Software Engineer

2021 - 2024

Bangalore, India

Citrix

- Led key technology migration initiatives, including **transitions to Microservices, Google Chronicle, and from APIGEE to Azure API Management APIM**.
- Redesigned and modernized legacy applications using cutting-edge technologies such as .NET 8, Next.js, NuGet, and Azure Web Apps/Functions, **improving performance by 6x**.
- Led the design, development, and implementation of web and licensing projects, ensuring alignment with **business goals and technical requirements**.
- Created intuitive, user-friendly interfaces, **leveraging Figma and Lucidchart** for prototyping and design, to deliver an exceptional customer experience.
- Wrote and reviewed code to ensure compliance with project standards for **quality, performance, and maintainability**.
- Supervised comprehensive testing processes, **including unit, integration, end-to-end, and user acceptance testing UAT**, ensuring product reliability and quality.

Software Engineer II

2018 - 2021

Bangalore, India

Citrix

- Independently developed a licensing tool that resolved customer issues, **reducing production issues reported to developers by 75% and cutting resolution time from days to mere seconds**.
- Designed and developed scalable applications using C# and .NET Core, achieving a **60% increase in application performance and efficiency**.
- Implemented CI/CD pipelines with **Azure DevOps to automate deployment processes**, significantly reducing deployment time.
- Managed database design, **optimized queries and stored procedures**, and enhanced database performance.

Software Engineer I

2016 - 2018

Bangalore, India

Citrix

- Led **integration projects** and implemented enhancements to improve system functionality and consistency.
- Designed and **developed a feature toggle tool** to manage version control and feature availability based on geographic and business criteria.
- Successfully **migrated SSIS 2008** interfaces and packages to SSIS 2012, ensuring improved performance and stability.
- Worked on **BizTalk interfaces** to enable seamless communication between systems such as SAP, Salesforce, FNO, and CADS, ensuring smooth business operations.

SKILLS

Languages

C#, Python, JavaScript, SQL, Java

Frameworks

.Net Core, ASP.Net, Next.js, React.js

Web

HTML, CSS3, RESTful APIs, Web APIs, FAST APIs, Microservices

Cloud Services

Microsoft Azure Functions, Apps, Service Bus, DevOps, Databases SQL, NoSQL, Logging & Monitoring, APIM

Tools & Database Systems

Git, JIRA, Splunk, New Relic, Swagger, Redis, NCache, MS SQL Server, MongoDB, Figma, LucidChart

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900)
- Microsoft Technical Associate in HTML 5 Application Development
- Microsoft Technical Associate in Database Fundamentals
- Certified SAlFe 5 Practitioner

EDUCATION

Bachelor's of Engineering Degree in Computer Science

RGPV University
2012 - 2016

GPA **8.4 / 10**
